WHO WE ARE

The Welcome Centre Shelter for Women and Families passionately commits to improving the lives of women+ and families impacted by homelessness in our community.

We have 35 years of experience in supporting women and children facing adversity, and we've ensured our services have evolved to meet their changing needs, which includes supporting youth and members of the LGBTQ2S+ population. We've garnered recognition locally and nationally for our evidence-based, low-barrier, and harm-reduction-focused responses to supporting women. Overall, our success is built on collaboration with donors, funders, community partners, and government agencies.

In 2024, we began year one of a five-year strategic plan that put us on a track to be more intentional with our future expansion goals, linked to measurable outcomes and all with low-income women at the heart of programs.

WHY FOOD SERVICE?

We launched our food service to create a sustainable source of funding for programs that don't receive government support, including children's programming, peer support, and harm reduction services. By generating revenue through our social enterprise, we can maintain and expand these vital programs, ensuring women+ and families in Windsor-Essex continue to receive the support, guidance, and care they need. Every meal purchased helps bridge funding gaps and directly contributes to positive outcomes in our community.

OUR GOAL

Our goal is to turn every food service purchase into meaningful support for women+ and families experiencing homelessness. Beyond providing meals, this initiative helps fund life-changing programs that empower women+ to regain stability, build resilience, and successfully transition back into the community. With your support, we can continue to deliver services that foster long-term housing, improved social health, and stronger futures for some of our most vulnerable community members.
